

TUBULAR MEMBRANE REPLACEMENT FOR JUICE CLARIFICATION

SOLUTION:

Our tubular core replacement concepts enable you to significantly reduce the membrane exchange costs. Reusing the pressure housing along with a reduction of total transport costs (weight reduction) that is associated with the replacement concept means that the core solution provides an economically and ecologically attractive alternative to purchase a completely new module. Changing a membrane core is a user-friendly process and can be done with little effort in practice.

CHARACTERISTICS:

- High filtration output
- High solid content possibility
- Easy rinsing/cleaning
- Smooth surfaces
- Extremely high mechanical stability
- Easy to install

TECHNICAL DATA

Product Code	KMTC-D-SD-0310-X	KMTC-D-SD-0312-X	KMTC-D-SD-0412-X
Membrane tube quantity	19	19	37
Core Diameter (mm)	75	75	107
Core Length (mm)	3,050 (10')	3,660(12')	3,660(12')
Membrane Area (m ²)	2.2	2.6	5.2
MWCO pore size (kDa)		100, 500	
Header Material		Polysulfone	
Membrane tube diameter (mm)		12.5
